

Dear Customers,

As we all know, the global impact of the COVID-19 outbreak continues to rapidly evolve both in terms of the supply of raw materials and the personal toll on numerous societies around the world. With the number of confirmed cases rising, our thoughts are with those affected.

Harco values our workforce and the workforce's of our customers and suppliers. One of our main priorities at present is doing our part to prevent the spread of this virus and ensuring the safety and health of our collective staff and communities. We have implemented appropriate restrictions on incoming and outgoing business travel, and fully respect that you may have your own restrictions in place.

We have a continuous line of communication with our suppliers and are not anticipating any supply disruptions due to the COVID-19 pandemic. We continue to discuss the evolving global situation with our long-standing supply partners and continue to maintain multiple qualified vendors to reduce supply challenges. HARCO maintains large levels of inventory and we replenish orders well in advance of when we need them to ensure uninterrupted supply.

HARCO intends to remain open, fully staffed, and carry on business with a commitment to serve our customers in the best way we can, as we have done since 1964. Should the situation change we have plans in place to adapt accordingly.

If you have specific concerns, please contact us at the contact information detailed below.

Sincerely,

Terry D. Harris CET
Vice President
