Re: We Remain Open and Committed to Serving You

Harco Enterprises Ltd., remains OPEN and COMMITTED to working with our valued customers, vendors, and associates during this unprecedented time of the COVID-19 virus pandemic.

On March 24, Ontario issued a list of businesses that are considered essential and based on this, Harco Enterprises Ltd., falls under multiple categories as being deemed an essential business. As such we will continue operating through these challenging times. Harco Enterprises Ltd. is a manufacturer and distributor servicing multiple business sectors, many of these also deemed essential and critical to the infrastructure of our society.

Harco's role as an essential supplier will not detract from our commitment to our employees. The safety and well-being of our employees, as well as our customers and suppliers, is of the greatest importance to us. While we will continue our manufacturing and distribution operations, we, like many other businesses, have taken necessary steps to ensure employees' safety and well-being.

Harco will continue to provide the quality products and services you expect from us along with an unmatched level of commitment.

The Management and staff at Harco wish you continued good health and safety.

Sincerely,

Terry D. Harris CET
Vice President
